

Technical Data Sheet

McAlpine SolvPro – Professional PVC Solvent Cement

Reference: TDS-SOLVPRO-001 Revision Date: 1 April 2029

Product Description

McAlpine SolvPro is a high-performance, fast-setting PVC solvent cement for professional plumbing applications. UV-reactive formula glows under ultraviolet light to verify coverage.

Key Features

- UV Reactive (glows under UV light)
- Fast setting
- High strength
- Low odour
- Professional grade

Applications

For PVC pipe and fittings in pressure and non-pressure systems.

Property	Value
Appearance	Clear
Resin	PVC
Viscosity	Medium
Set Time	Fast
Spec Gravity	0.90–0.95
Shelf Life	3 years
Storage	5–40°C

Installation

Clean surfaces, apply evenly, assemble immediately, allow curing. Use UV light to confirm coverage.

Safety

Use in ventilated areas. Keep away from ignition. Not for compressed air systems.

Storage

Store sealed in a cool, dry place away from sunlight.
